Summer Anatomy Students:

The summer anatomy course has an AM lab (lab I) and a PM lab (lab II). Since this is the only course being taken by Rehab Sciences students this summer, OKC students can be in either lab without any academic conflicts. Out of 200+ students, most would prefer to be in the morning lab to free up the afternoon. The only fair way to deal with this issue is to randomly assign students into one or the other lab. **This will be my responsibility.** Thus you will be assigned to be in the AM lab (lab I) or PM lab (lab II). For personal reasons, many students can make compelling cases as to why they need to be in one lab or the other. There is no way to evaluate which students have the most compelling circumstances and thus there will be **no exceptions to this rule.** **AM/PM labs will switch on July 2nd**

Dr. Amy Davis
