

2013 RESEARCH DAY
POSTER PRESENTATIONS

OKLAHOMA CITY

(Display #)

1. **Arnold, SH., Kolobe, THA., & Smith, E.** *Measuring the outcomes of students: Rasch analysis of the School Outcomes Measure (SOM)*
2. **Boutsen, FR. & Dvorak, JD.** *The influence of speech task on labial kinematics*
3. **Ciro, C., Hershey, L., & Prodan, C.** *Differences in LADL performance between people with mild cognitive impairment and age/gender-matched controls*
4. **Crawford, DA., Dionne, CP., & Hamilton, TB.** *Factors related to sustained employment and participation in physical activity for individuals with transtibial amputation*
5. **DeGrace, BW., Sloop, J., Brock, A., Smith, S., & Crone, J.** *Families raising children with autism: A photovoice exploration of family health*
6. **Dennison, M., Sisson, SB., Stephens, L., Lora, K., & Caudillo, C.** *Assessment of nutrition and physical activity behaviors among Native American children in Oklahoma: A proposal*
7. **Dvorak, JD., Boutsen, FR. & Deweber, DD.** *Quantification of intrinsic and extrinsic prosody control*
8. **Freeman, M. & Robinson, C.** *Modified Constraint-Induced Movement Therapy (mCIMT) is a more effective intervention than Bilateral Arm Training (BAT) for increasing functional performance in individuals with an upper extremity hemiparesis due to chronic stroke*
9. **Hoffman, L., Knehans, A., Anderson M., & Postier R.** *The effect of enteral nutrition on postoperative nutritional and surgical outcomes after pancreatic resection*
10. **John, AB., Wolfe, J., Woods, W., & Wheeler, J.** *Non-linear frequency compression processing in pediatric hearing aid fittings*
11. **Woods, W. & John, AB.** *Effects of environmental noise exposure by dental hygiene students*
12. **Kleckner, M. & Ciro, C.** *Occupational therapy student perspectives on “research” as a fieldwork 1 experience*
13. **Knowlton, AH., Veal, CM., Fleming, VA., & Sisson, SB.** *Relationship between sedentary time and energy intake in children*
14. **Long, L. & Ciro, C.** *Effectiveness of paper-based and computer eccentric viewing training on reading speed in individuals with central scotomas*

15. **Lora, KR., DeGrace, B. & Sisson, SB.** *Influence of family meals on 6-11 year-old children social behaviors*
16. **Mann, SA. & Ciro, CA.** *There is some evidence for task-oriented approach to improve ADL outcomes in adults with neurological conditions*
17. **New, J., Adamiec, R., Knehans, A., Arnold, S., & Sisson, SB.** *Motor skill function in preschool children as a predictor for physical activity level*
18. **Park, E., Boutsen, FR., & Deweber, DD.** *The effect of first language prosody on second language vocabulary mapping in adults*
19. **Pennel, K. & Ciro, C.** *Occupation-based treatment for individuals with hand injuries*
20. **Scott, L., Smith, A., Anderson, M., & Lora, K.** *Sugar-sweetened beverages and fruit juice in the home and participation in nutrition assistance programs*
21. **Smith, A., Scott, L., & Lora, KR.** *Purchasing behaviors of sugar-sweetened beverages of family members in the homes of 3-5 year-old children*

TULSA

(Display #)

1. **Arnold, SH., Kolobe, THA. & Smith, E.** *Measuring the outcomes of students: Rasch analysis of the School Outcomes Measure (SOM)*
2. **Dennison, M., Sisson, SB., Stephens, L., Lora, K., & Caudillo, C.** *Assessment of nutrition and physical activity behaviors among Native American children in Oklahoma: A proposal*
3. **Haskell, L. & Hoppes, S.** *Self-management training improves attention in classroom settings for children with ASD: A critically appraised topic*
4. **Hoffman, L., Knehans, A., Anderson M., & Postier R.** *The effect of enteral nutrition on postoperative nutritional and surgical outcomes after pancreatic resection*
5. **Mann, SA. & Ciro, CA.** *There is some evidence for task-oriented approach to improve ADL outcomes in adults with neurological conditions*
6. **Woods, W. & John, AB.** *Effects of environmental noise exposure by dental hygiene students*
