

# Head Start BMI and Communication Toolkit Development

## Goals of Project

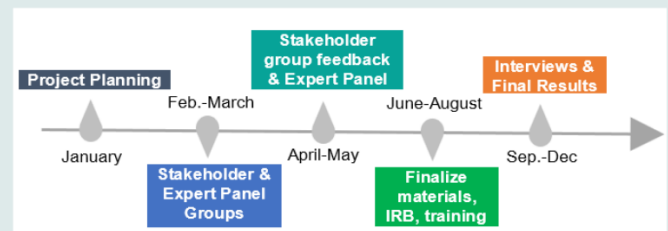

- Conduct community forum meetings to better understand Head Start and parent perspective on height and weight measurement and parent communication toolkit
- Develop training toolkit for height and weight measurement and communication with parents
- Integrate feedback from Head Start programs on the toolkit and training
- Pilot test the toolkit and training materials

## Current Update

- Completed the training toolkit video and infographic in June 2022
- As of June 2022, in the process of integrating feedback from Head Start programs

## Project Timeline

## Toolkit Video with supplemental infographic

- [Video Link Here](#)

## Waiting on Feedback

- In the first couple of weeks of June, we will be holding the second round of stakeholder meetings
- Wanting to hear honest feedback and thoughts on toolkit video and infographic

## Future Directions
