

APRIL 12, 2019 | 8:30AM - 3:30PM

College of Allied Health 9th Annual Research Day

8:00-8:30	Registration <i>OKC: Carole A Sullivan Atrium, Tulsa: LC145</i>		
8:30-8:45	Welcome Address: Susan Sisson, PhD, RDN, CHES, FACS, Assistant Dean for Research <i>OKC: AHB 1117*, 1046, 1047, 2058, 2059, 2065; Tulsa: LC145/222</i>		
8:45-9:45	Keynote Address: Zsolt Nagykalai, PhD, Associate Professor Director of Research in the Department of Family & Preventive Medicine <i>Translating Research Into Practice and Practice Into Research: A Vision for Community & Patient-Centered Science and Healthcare</i> <i>OKC: AHB 1117*, 1046, 1047, 2058, 2059, 2065; Tulsa: LC145/222</i>		
9:45-10:00	Short Break		
10:00-11:00	Track 1 Moderator: Christi Barbee <i>OKC: AHB 1117*, 1046 Tulsa: LC 145</i>	Track 2 Moderator: Lynn Jeffries <i>OKC: AHB 1047*, 2065 Tulsa: LC220</i>	Track 3 Moderator: Hongwu Wang <i>OKC: AHB 2058*, 2059 Tulsa: LC222*</i>
	Anna Marie Jilla: Hearing Aid Affordability in the United States: Big Data from the American Community Survey.	Kayla Quashie: The Relationship between Dietary Zinc and Protein Intake in Patients with Pancreatic Cancer.	Jessica Tsotsoros: Implementation of a Health and Wellness Program for Adults with Persistent Behavioral Diagnoses.
	Thubi Kolobe: The utility of EEG as a measure of motor developmental and intervention outcomes.	Tycen Flygare: Clinical Instructor Productivity When Educating Doctor of Physical Therapy Students.	Anna Tran: Effects of Larger Neck Tissue Density in Thyroid Studies.
	Natalie Wansick: Movement Selection and Progression in Children at High Risk for Cerebral Palsy versus Children at Low Risk for Cerebral Palsy.	Bradford Gildon: Visible Body Art among Radiographers: Perceptions and Impact within the Profession.	Jennifer Morrison: Creating an Intestinal Epithelial Cell Culture Model to Screen Novel Phytochemical Therapies for Postmenopausal Women.
	Krista Wolfe: Yttrium-90 Sir-Sphere Spills: A Pilot Study to Determine Efficient Clean-Up Practices.	Hannah Blanden: Correlation of Grip Strength and Patient-rated Outcome Measures in Orthopedic Dysfunction.	Alyssa Rucci: Effectiveness of Occupational Therapy Intervention Post-UE Injury on Reported Performance and Satisfaction of IADLs.
11:00-11:10	Short Break		
11:10-11:55	Lab Tours & Poster Presentations (<i>OKC: Carole A Sullivan Atrium</i>)		
12:00-1:00	ID/IEP Week Keynote Address: Kathrin A. Eliot, PhD, RDN/LD, FAND Office of Interdisciplinary Programs Interprofessional Educators and Practitioners Association <i>"We Can Do It!" Co-creating Excellence Through Interprofessional Education</i> <i>OKC: AHB 1117*, 1046, 1047; Tulsa: LC145/222</i>		

1:10-1:55	Lab Tours & Poster Presentations (OKC: Carole A Sullivan Atrium & Tulsa: Innovation Commons)		
2:00-3:00	Track 1 Moderator: Jennifer Graef OKC: AHB 1117*, 1046 Tulsa: 3102	Track 2 Moderator: Ashley Hobson OKC: AHB 1047*, 2065 Tulsa: 3106	Track 3 Moderator: Carole Johnson OKC: AHB 2058*, 2059 Tulsa: 3108*
	Danielle Knight: Evaluation of Hearing Performance with a Variety of Wireless Remote Microphone Technologies.	Yong Zhou: Dietary Protein Intake Correlates with Body Weight in Pancreaticoduodenectomy Surgical Candidates.	Ken Randall: Using Social Simulation to Teach Rehabilitation Science Students about Adverse Childhood Experiences (ACEs) and Trauma Informed Care (TIC).
	Danielle Smith: Percent Efficiency of a Well Counter Detecting Y-90 SIRSPHERES.	Hongwu Wang: Effects of a Wearable Focal Vibration Device on Gait and Mobility in Diabetic Peripheral Neuropathy.	Kortney Bush: Socioeconomic Impact and Hearing Loss: Big Data from the American Community Survey.
	Elizabeth Hile: Two Weeks of HI-FIVE Exercise & Diet Prehabilitation Improves Physical Function before Pancreaticoduodenectomy in a Pilot RCT.	Taylor McCurtain: Tracheal and Bronchial (TB) Airway Deposition of TC-99m DTPA during Nuclear Medicine Lung Ventilation Studies.	Kaitlyn Lutz: Plantarflexion Range of Motion Using Goniometry and Motion Capture of Elite Ballet Dancers.
	Jessica Smith: The Effect of a Health and Wellness Program on Bone Mineral Density among Children with Acute Lymphoblastic Leukemia.	Nana Twum-Ampofo: The Complexity of Movement Velocity at different stages of Sitting Posture Development among Infants: A Pilot study.	Anna Williams: F-18 Axumin (Fluciclovine) and a Multidisciplinary Approach in a Case of Metastatic Prostate Cancer.
3:10-3:20	Short exit remarks and presentation of awards OKC: AHB 1117*, 1046, 1047, 2058, 2059, 2065 Tulsa: 3102/3108
