

## From the Clinical Education Team

She is a wonderful Clinical Instructor and any student would be lucky to learn from her. She is always available to answer any questions you may have while in clinic and provides very helpful feedback. She challenges you to step outside of your comfort zone.

*Clinical Education Student*

Thank you for your continued support of students from OUHSC. In 2019, 27 MOT and 58 DPT students graduated. During the year, your generosity allowed us to accomplish over 360 student full time fieldwork/clinical education experiences and support another 90 students in daily experiences. We recognize your commitment to the development of our students and cannot say *Thank You* enough. We understand it takes the team to support the education of our future peers and could not do this without your commitment.

### Upcoming Clinical/Fieldwork Dates for 2020:

#### Physical Therapy

CE II June 29th - August 21st, 2020

CE I July 6th - August 14th, 2020
