3:00 - 3:50			MIRS 4272 Correlative Imaging & Therapy  <b>Online</b>			
4:00 - 4:50			DiGiacinto			

Clinical education for this semester is taken under MIRS 4860 Advanced Clinical Sonography in two sections (4 credit hours & 3 credit hours). Due to the COVID-19 Pandemic clinical Rotations schedules may be disrupted. In addition, there is the expectation senior students will be completing make-up time from prior semesters of MIRS 3860/4860. Each clinical credit hour of MIRS 4860 is equivalent to 96 clock hours of clinical rotations, scanning labs and discussion. Clinical discussion substitutes for 1-4 hours of clinical education contact per week during Weeks 9-16.
