1 - COLLEGE OF ALLIED HEALTH HISTORY

A School of Health- Related Professions, approved by the Oklahoma State Regents for Higher Education in 1967 and activated in 1970, was initiated to integrate, correlate, and coordinate the several allied health programs already existing in the then Medical Center, and those that might develop in the future. In 1971, the University of Oklahoma Medical Center became the University of Oklahoma Health Sciences Center (OUHSC), and all schools on the Health Sciences Center campus were designated as colleges. The School of Health-Related Professions became the College of Allied Health Professions.

Initiation of the School of Dentistry, the School of Health, and the School of Health-Related Professions was a forward step in advancing the concept recommended by the Oklahoma State Regents for Higher Education that the Medical Center milieu be expanded and developed into a comprehensive educational center for the health sciences.

The College of Health and Allied Health Professions was created in July 1973 by combining the College of Public Health and the College of Allied Health Professions into a single college. In July 1974, the title of the combined college was shortened to the College of Health, but the functional organization of Allied Health Professions and Public Health was maintained as separate schools headed by directors within the College. On July 1, 1981, the College of Health was separated into its previously existing units: the College of Allied Health and the College of Public Health.

In 1998, the College of Allied Health extended its occupational therapy and physical therapy programs to the University of Oklahoma Health Sciences Center-Tulsa Campus. In 2000 the Tulsa students moved to the OU-Tulsa Schusterman Campus. In 2006, the College extended its sonography program to the OU-Tulsa Schusterman Campus, and in 2007 extended its radiography program to OU-Tulsa; however, the radiography program on the OU-Tulsa campus was suspended in 2016. In 2009, a new College of Allied Health building was completed at 1200 N. Stonewall Avenue in the heart of the University of Oklahoma Health Sciences Center campus, and the College of Allied Health relocated to its dedicated College building.

The College of Allied Health is the first of the University of Oklahoma Health Science Center colleges to offer undergraduate and graduate web-based degree programs.

5.1 - Academic Integrity

The College of Allied Health is committed to a culture of trust and individual accountability. At the foundation of this culture are the principles of truth, fairness, respect, and responsibility. Personal responsibility in all dimensions of teaching and learning result in principled people with shared standards, which assure that the allied health professions consist of practitioners with character. The choices that practitioners make shape their character and their practice. Consequently, in the College of Allied Health community, integrity in all aspects of professional education and personal development is a shared value. Individual acts that are in conflict with this shared value of integrity are subject to the Academic Misconduct Code of the University of Oklahoma. [Please also see Regents' Academic Integrity Policy and Academic Misconduct Code policies in the OUHS Faculty Handbook, Sections 4.17-4.18.](#)

5.2 - College Standards

To maintain **good standing** and to be eligible for **graduation** in the College of Allied Health, the student must meet each of the following minimum standards of performance:

- A minimum grade of C or S in each program course.
- A grade point average of 2.50 or higher each semester.
- A cumulative grade point average of 2.50 or higher while enrolled in an academic program in the College.
- A grade point average of 2.50 or higher in all required courses in the academic program in which the student is enrolled. Satisfactory professional performance and behavior.
- Satisfactory progress, as determined by the Academic and Professional Progress Committee and the Dean.

Doctor of Philosophy (Ph.D.) and Master of Science (M.S.) Graduate College programs in the College of Allied Health must comply with the academic standards of the University of Oklahoma Graduate College, which are printed in the [Graduate College Bulletin](#).

6 - ACADEMIC AND PROFESSIONAL PROGRESS POLICIES

Students receive and may solicit counsel on their academic and professional progress from their department faculty or program director throughout the semester. The judgment of satisfactory academic and professional progress of each student is vested in the faculty of the department.

To monitor academic and professional progress, each department has an **Academic and Professional Progress Committee (APPC)** consisting of teaching faculty of the department. The APPC will meet at the end of each semester, and more often if needed, to review the progress of each student.

The APPC analyzes each student's overall academic, clinical, and professional performance and makes recommendations in writing to the Dean regarding each student's academic and professional progress. The APPC may recommend that the Dean commend, promote, retain, place on or continue probation, suspend, or dismiss a student. Recommendations may also include,

but are not limited to:

- Individualizing course sequence and selection. Modifying standard timing and sequence of coursework. Repeating courses.
- Adding courses to strengthen basic competencies. Assigning specialized academic and/or clinical projects.
- Making program modifications to allow for higher-level work and advanced studies for students making exceptional progress.

When a student's semester grades and/or clinical and/or professional performance do not constitute required progress, that student is informed of the recommendations of the Academic and Professional Progress Committee by letter from the Dean, which includes the Dean's decision and necessary sanctions.

6.1 - Professional Performance and Behavior

College of Allied Health students in an academic and clinical environment are expected to conduct themselves in a professional manner. They should respect the dignity of each individual with whom they are associated. The following considerations are intended to supplement, not replace, any code of professional performance and behavior that might exist in the College of Allied Health program in which the student is enrolled.

6.1.1 - Professional Dress Code

- Students assigned to clinical rotations will comply with the regulations regarding personal appearance and dress established by the clinical faculty/organization with which they are associated and by the College of Allied Health department in which they are enrolled.
- Students who are not on specific rotations but whose daily activities may require them to be in a clinical environment for portions of the day should be familiar with the regulations regarding personal appearance and dress and should use discretion and judgment in complying with these regulations to the best of their ability.
- Attire for students not in a clinical environment shall be appropriate for a student aspiring to their particular profession, yet should also allow for performance of the activities associated with coursework and related educational experiences.

6.1.2 - Professional Conduct

Anticipation of all situations arising in the academic or clinical setting and in the interaction of students with the professional and/or patient community is impossible. However, the basic guidelines outlined below in conjunction with specific guidelines established by the departments in the College of Allied Health should provide direction to students in how to conduct themselves in a professional manner.

Self-discipline is required in student relationships with patients, peers, supervisors, and other members of the professional community. Personal preference and interests must be secondary to patient care. Failure to observe professional standards of practice is unacceptable and may result in academic sanctions and/or disciplinary action. Additionally, the student may be subject to legal actions by the patient and/or clinical site.

- Student actions, comments, and personal appearance must be tailored to project an image of confidence, cooperation, and trust.
- Students should maintain a pleasant, courteous, and respectful attitude toward others in both the academic and clinical settings.
- Students must preserve the confidentiality of patients'/clients' medical and personal history at all times. Students should reflect at all times a concern for the rights and welfare of patients/clients and their families.
- Students should consider the behavior of the patient/client, even if overly belligerent or otherwise disagreeable, in the context of the patient's illness and handle the situation accordingly.
- Students should be respectful of and responsive to faculty and staff and should observe the defined line of authority with respect to clinical assignments and activities.
- Students are expected to abide by established procedures of their particular discipline regarding performance, patient treatment, and departmental duties in the clinical environment.
- Students should avoid the use of inappropriate language in academic and clinical settings.
- Students must not be under the influence of alcohol or drugs when in the academic or clinical environment.
- Students should avoid the use of tobacco products.
- Students should not discuss personal matters with or around patients. Students must avoid personal biases in all circumstances.
- Students should avoid interruption of patient care to question or dispute orders in the clinical setting. Students may request clarification of any written or verbal order, but only at an appropriate time. If the student strongly disagrees with

orders given by clinical personnel, the course of action should follow one of the following depending on standard rules and procedures of the discipline.

- Perform their immediate duties, including the ordered treatment, and then consult their clinical coordinator in order to resolve the misunderstanding or disagreement, or
- Request to be excused from doing the treatment and report immediately to their clinical coordinator to resolve the issue.

Please also see Regents' Professionalism policy in the OUHS Faculty Handbook.

6.1.3 - Prohibited Conduct

Generally, the imposition of discipline shall be limited to conduct that adversely affects the College community's pursuit of its educational objectives, violates or shows disregard for the rights of individuals within the College community, or damages property. College officials charged with enforcement of these regulations shall have the authority in execution of such enforcement duties, to perform such acts as are required to maintain the security, well-being, safety, or tranquility of the College community, its members, and its guests. - The use, possession, sale, or distribution of controlled or illegal substances.
- Defacement by writing, drawing, or marking of any kind upon any permanent interior or exterior wall or sign, or similar vertical surface, in any medium, including chalk, felt-marker, etc., or any writing, drawing, or marking of any kind in any permanent medium, such as paint, upon any sidewalk, mall, patio, terrace, or street, except as authorized.

11.3 - Bicycle Parking

Bicycle racks are installed at various locations surrounding the buildings on both the OUHS and OU-Tulsa campuses. Parking bicycles, mopeds and other small vehicles within the buildings violate parking policies and will be subject to tow-away.

11.4 - Building Access

Students may generally access the OU-Tulsa Schusterman Center and the OUHS College of Allied Health buildings 24 hours a day by using the Sooner OneCard. The Sooner OneCard is the official identification card for library access, door access, facilities entrance, and athletic event entrance.

11.5 - Bulletin Boards

Bulletin boards are available to post general student and program information. A bulletin board for Tulsa students is located directly outside the 2nd floor labs in room 2D12 and at the west end of the 2 E hallway. Students must receive approval to post items on bulletin boards from the Office of Academic and Student Affairs. Oklahoma City bulletin boards are adjacent to each department in the College of Allied Health Building. To place information on these bulletin boards, students must get the approval of the appropriate department chairperson or designee or the Office of Academic and Student Affairs.

Posting guidelines include:

- All postings (notices, announcements, memo, etc.) should be placed on designated bulletin boards.
- Do not post on wooden doors, painted walls, or the glass doors/windows at building entrances. Tape adhesive damages wood and painted finishes. Old tape on glass surfaces creates an unsightly appearance.
- Exception to this policy may be made for temporary urgent postings (room changes, class cancellations due to illness, etc.). These notices may be placed on or near the door to the room; however, masking tape should be used (not transparent tape), and the notice should be removed promptly after serving its purpose.

The electronic bulletin board is also available to post general student information. For approval to place information on the

electronic bulletin board, students must contact the Office of Academic and Student Affairs.

11.6 - Bus and Trolley Services

OU Parking and Transportation Services provides bus and trolley services for the Oklahoma City campus. Routes are published [online](#).

11.7 - Campus Police and Public Safety/Inclement Weather Policy

The Campus Police and Public Safety's [OKC](#) and [Tulsa](#) websites include policies and procedures of interest to students regarding right to know, general safety, hazardous weather, and emergency services. Information regarding campus closing due to hazardous weather is announced on the OUHS home page and is available at 405.271.6499 (OKC) and 918.660.3999 (Tulsa) and through the University's Emergency Communication System (ECS). The University of Oklahoma's Emergency Communication System (ECS) enables the University to send time-sensitive notifications about emergency situations including building refuge and egress to all students, faculty, staff, and identified campus affiliates. These urgent messages will be transmitted to all available voice service, e-mail and text messaging options. You must sign up for text alerts at <https://ouhsc.edu/ecs/>. Students in clinical assignments are considered professionals-in-training and are learning the responsibilities of health care providers whose services are vital to patients, clinics and hospitals. Therefore, they too are responsible for meeting their obligations regardless of inclement weather unless relieved of these duties by their instructor/clinical supervisor.

Occasionally inclement weather will necessitate campus closure as dictated by the OUHS Provost and OU-Tulsa President. If inclement weather is predicted, please check your campus websites to ascertain the status of your campus. Students should also receive notification from ECS via text, phone, and/or email. Students are expected to monitor these sites to determine if classes are to be held. Failure to do so may not be accepted as an excuse for a missed exam or assignment. Students in Departments and Programs located on the two separate OUHS and OU-Tulsa campuses should refer to their Department Handbook for the guidelines in how class, labs, clinics, and other scheduled curriculum responsibilities will be handled when one campus is closed and the other is open.

11.8 - Clinical Requirements

The College is affiliated with many facilities to provide the clinical education experience for students. Each facility may have requirements that students must satisfy unique to that facility including criminal background checks and drug testing.

- **Criminal History:** Criminal background check is required of all OUHS students. Many clinical facilities require background checks, including a check of the sex offenders list. It is the student's responsibility to annually complete the criminal background check as instructed by the College and clinical coordinator. It is the student's responsibility to maintain the background check for presentation to the clinical facility personnel. Students with adverse findings may be disciplined in accordance with established University policy.
- **Drug Testing:** Drug screening is required of all OUHS students in designated programs as many clinical facilities require students to pass a drug test. It is the student's responsibility to comply with the necessary procedures and consent forms for the required drug screening. Students who fail to adhere to the drug testing deadline established by the College will be suspended from all classes until clearance documentation is received.

Lack of timeliness in completing the background check and drug test may delay a student's participation in the scheduled clinical experience. Failure to pass a background check or drug test will prevent a student's participation in the scheduled clinical experience and may delay or prevent licensure and/or certification in the professional discipline.

Medical professionals adhere to ethical standards and core values and must protect themselves and their patients through proper immunizations. No clinical site will host a student without the proper immunizations as spelled out in our affiliation agreement contract. Students who cannot complete clinical experiences will not be able to complete the program requirements nor graduate. Students who cannot satisfy immunizations per requirements to progress through the curriculum should choose an alternate college plan.

If not compliant within ten days, the student may, at the discretion of the College, be suspended from classes and/or rotations until proof of coverage is provided. In such event, the student may miss academic or clinical work, classes, or rotations, which may prevent the student from successfully completing a particular class, rotation, academic requirement, or semester. Information about student health insurance plans is available [online](#). For additional information on student health insurance, contact the Office of Academic and Student Affairs.

11.13 - Health Insurance Portability and Accountability Act (HIPAA)

All enrolled students must annually complete the online HIPAA training and submit a certificate of completion through the appropriate process as communicated by their program. It is recommended that students retain a copy of this certificate for their personal education records. The HIPAA training must be completed within thirty (30) days from the first day of classes unless the department or college requires earlier completion, and annually thereafter.

- An **Oklahoma City campus student** should report to the OU Physicians Student Health & Wellness Clinic located at 825 NE 10th Street in Oklahoma City within an hour of the incident. 14.6 - Procedures for Outside Bank Accounts

If a Registered Student Organization has self-generated funds (such as from a fundraiser or membership dues) that have not been comingled with University funds, those monies may be used to make otherwise unallowable purchases. For example, if the organization wishes to do a football ticket giveaway, provide door prizes, or give an award for attendance, you could not do that with Student Government Association funds, but you could with self-generated funds.

In order to spend self-generated funds, Registered Student Organizations may opt to set up the organization's accounts at local banking institutions. Organization advisers should be involved with any outside accounts set up to help ensure proper financial records are kept and any necessary taxes are filed.

To set up a local bank account, a Registered Student Organization will be required by the bank to provide personal information. Please be mindful of student leadership turnover and what is best for all persons involved. Alternatively, the organization may obtain a federal identification number to use for banking purposes. Form SS-4 will require a responsible party's name and Social Security number.

Registered Student Organizations are not permitted to use the University of Oklahoma's tax ID number. Please note that becoming tax exempt is a very involved process that may or may not be beneficial for a registered student organization. If it is desired, the student organization will need to obtain the services of an outside lawyer or accountant. HSC Student Affairs does not (and cannot) provide these services for groups. It is imperative that the organization's adviser be highly involved with the registered student organization regarding financial decisions of this nature.

Funds generated from dues, assessments, and fund-raising events or any other revenue-generating activity and deposited into a university account will be reviewed for University fiscal allowances set forth by HSC Administration & Finance.

Student groups who hold fundraising events in University facilities may be required to pay a facility fee. All Student Activity Fee funds must be handled through the University.
