- Certificate Program: 1 program

19 Academic Allied Health Programs

649 Students Enrolled FY 2019-2020

FACULTY

RESEARCH FOCUS AREAS in different diagnostic groups including neurology, geroscience, orthopedics, cancer and diabetes and work collaboratively with investigators across campus and across the country.

In FY 2019-2020, the College has 48 full-time and 1 part-time faculty for a total of 48.75 FTE faculty, 181 volunteer faculty, and 37 emeritus faculty.

ALUMNI AND FRIENDS

Over 10K Alumni Strong

Awarded 115 scholarships to students in 2019 totaling more than $500,000 in student support!

Over 62% of Alumni reside in Oklahoma

24% of Alumni reside in District of Columbia, military serving overseas, South Africa, Singapore, Canada, Hong Kong, Norway, Switzerland, Venezuela, Ethiopia and Mexico.

CLINICAL EXCELLENCE

- John W Keys Speech and Hearing Center, a full-service pediatric and adult speech and hearing clinic
- Interdisciplinary specialty clinics in balance and falls, tinnitus, central auditory processing disorder, and cleft palate / craniofacial disorders
- Partnership with United Way of Central Oklahoma to provide free hearing evaluations and low-cost hearing aids to qualifying patients
- Professor Paws providing hands-on learning experiences for students, health care professionals, and the community about the benefits of service dogs.

COMMUNITY ENGAGEMENT

- Over 300 Community Members: Receiving Health Assessments twice a year by over 75 PT and OT student volunteers at the Tandy Family YMCA
- Over 400 Runners: Treated with manual therapy and stretching by 125 PT and OT student volunteers at the Finish Line of the Tulsa Run
- Over 500 members of the community: Projected to be treated at the upcoming physical therapy clinic at the Day Center for the Homeless in Tulsa

Key programs developed by students for the community:

- Allied Health students collaborated with Architecture students to make a local fitness center more accessible for people who use wheelchairs or who have other mobility challenges
- Physical therapy students created wellness programs for members of the community who access the Day Center for the Homeless

We Empower Life by maximizing human potential through allied health interprofessional education, research, care, and community engagement.
