- Evidence of research/scholarly contributions to the profession
- Demonstrates effective oral and written communication skills and the capacity for self-evaluation that supports professional development
- Experience in working with underrepresented populations
- Evidence of collaboration in research, teaching, and service

RESPONSIBILITIES:

Supports the Department of Rehabilitation Sciences professional and post-professional programs through research, teaching, and service.

Tenure-track or tenure eligible, Open Rank Professor Position is a 12-month appointment.

The Department of Rehabilitation Sciences at the OU Health Sciences Center invites applications from physical therapists with an earned post-professional doctorate to apply for an open-rank, 12 month, faculty appointment in our innovative and expanding Physical Therapy program.

The PT program was founded in 1954. In 2000, our innovative physical therapy and occupational therapy faculty launched an integrated, interprofessional curriculum. Our faculty enjoy the richness of interprofessional collaboration across three campuses: the OU Health Sciences Center (Oklahoma City), the OU Schusterman Center (Tulsa), and the flagship campus, the University of Oklahoma (Norman). OUHSC is home to eight colleges, offering a diverse community for graduate students in Pharmacy, Public Health, Medicine, Nursing, Dentistry, Public Health and Allied Health. Research collaborations are available through our NCI-designated Stephenson Cancer Center, the Harold Hamm Diabetes Center, Center for Geroscience and Healthy Brain Aging, and the OK Clinical and Translational Science Institute. Oklahoma City offers diversity in culture, cuisine, attractions and amenities you would expect in a downtown city of excellence!

The University is an Equal Opportunity/Affirmative Action institution. Individuals with disabilities and protected veterans are encouraged to apply.
