• Occupational Therapist with an earned entry level OTD or post-professional doctoral degree or an Occupational Therapist with a master’s degree with a plan for completion of a doctoral degree within the next 2 years.
• Candidate must be licensed in Oklahoma or meet all eligibility requirements for Oklahoma Licensure.
• The successful candidate will collaborate with faculty and clinicians from other OUHSC disciplines contributing to the interprofessional education of physical and occupational therapy students.

PREFERRED QUALIFICATIONS INCLUDE:

• Post Professional degree completed (PhD, EdD, DSc, DRPH, OTD) or accepted into an accredited doctoral program.
• Teaching experience in an academic setting.
• Three to five years of professional practice experience.
• Experience with adults, older adults is a priority
• Educational, clinical or research experience in occupational science, occupation-based practice, management, leadership, and/or health & wellness
• Experience with promoting social justice, eliminating health disparities, and building an inclusive environment for all.
• Record of involvement with professional associations.
• Evidence of scholarly contributions to the profession (i.e. presentations and/or publications at local, state or national level).
• Strong skills in Microsoft Office Suite programs and openness to new technology.
• Demonstrates effective communication skills through engagement and reflection.
• Evidence of innovative solutions in teaching, practice or research.
• Contemporary knowledge in OT Framework, occupational therapy theory, and practice models.

RESPONSIBILITIES:
Supports the development of the occupational therapy program through teaching, service, and scholarship activities.

Rank/Appointment: Assistant/Associate Professor, Consecutive-Term, Non-Tenure Track.

The OU-Tulsa Schusterman Campus, College of Allied Health, Department of Rehabilitation Sciences in Tulsa, Oklahoma invites applications from occupational therapists with an earned post-professional doctorate to apply for a 12 month, full-time consecutive-term, faculty appointments in our innovative and expanding Occupational Therapy program.

The OU Occupational Therapy program has a 47-year history of attracting students from around the country through excellence in education and research. Our program at OU-Tulsa enjoys the richness of collaboration with multiple disciplines across two campuses, the OU Tulsa Schusterman Center and the OU Health Sciences Center in Oklahoma City. Specifically, the Tulsa campus has collaborative opportunities with Community Medicine, Social Work, and Education. Unique to occupational therapy education, the OU Occupational Therapy program shares an interprofessional curriculum with physical therapy, an innovation not duplicated in any other OT program in the United States. Tulsa is a beautiful, metropolitan city ranked as a Best Place to Live with world class parks, recreation, and the arts.
