Assistant/Associate/Full Professor

The Department of Rehabilitation Sciences at the OU Health Sciences Center (OUHSC) invites applications from physical therapists with an earned post-professional doctorate to apply for an open-rank, 12-month, faculty appointment in our innovative and expanding Physical Therapy program at our Oklahoma City (OKC) campus. Tenure-Track, Tenure eligible, or Consecutive Term appointments available.

The PT program was founded in 1954. In 2000, our pioneering physical therapy and occupational therapy faculty launched an integrated, interprofessional curriculum. Our faculty enjoy the richness of interprofessional collaboration across three campuses: OUHSC (OKC), the OU Schusterman Center (Tulsa), the University of Oklahoma (Norman). OUHSC is home to eight colleges, offering a diverse community for graduate students in Pharmacy, Public Health, Medicine, Nursing, Dentistry, Public Health, and Allied Health. Research collaborations are available through our NCI-designated Stephenson Cancer Center, OU Health Harold Hamm Diabetes Center, Center for Geroscience and Healthy Brain Aging, and the OK Clinical and Translational Science Institute. Oklahoma City offers diversity in culture, cuisine, attractions, and amenities you would expect in a downtown city of excellence!

SEND LETTER OF INTEREST AND CURRICULUM VITAE:
Sandra Arnold, PT, Ph.D
Professor
Director, Lee Mitchener Tolbert Center
Director, Doctor of Science (DSc) Program
