

WE'RE HIRING

Required Qualifications:

- Have obtained a Ph.D. degree in Speech-Language Pathology or a related field.
- Provide evidence of successful didactic teaching in a university setting.
- Demonstrate potential for a productive research program.
- Have excellent interpersonal and communication skills.

Preferred Qualifications:

- Specialize in a preferred area of research, including craniofacial anomalies and disorders, dysphagia, motor speech disorders, autism spectrum, and AAC; other areas of expertise will be considered.
- Have an interest in developing research collaborations at a large medical campus.
- Engage in community and professional outreach.
- Disseminate scholarly work through professional publications and presentations.
- Have the potential to secure external grant funding to support a research program.
- Mentor student research.
- Have obtained clinical credentials.

Responsibilities:

Research/Scholarship:

- Develop and maintain active and productive research with the potential for external funding.
- Maintain a consistent record of publications and presentations through engaging in local, national and/or international opportunities.
- Mentor graduate students in research activities.

Teaching:

- Engage in active classroom and community teaching
- Participate in curriculum design and delivery, and contribute to program accreditation.
- Advise and mentor students.
- Support and promote a collaborative and positive learning environment for students.
- Deliver instruction using innovative and evidence-based teaching strategies.

Service:

- Contribute to university, college, department, and program committees.
- Engage in membership and leadership in professional associations.
- Contribute to the advancement of the profession of speech-language pathology through program development, continuing education, clinical service or clinical education activities.

12-month, full-time, open rank, tenure-track eligible faculty position

The communication sciences disorder department is one of five academic departments within the College of Allied Health at OUHSC. It is staffed by 14 full-time faculty members and offers four academic degree programs in speech-language pathology and in audiology: the pre-professional undergraduate degree (B.S. in CSD), two professional preparation degrees (M.A. in SLP, Au.D.), and the research degree (Ph.D. in either SLP or in Audiology). Within the college's Allied Health clinics, the **John W. Keys Speech and Hearing Center is administered by the Department of CSD** and serves as an **important research and clinical training site for students in the department's academic programs.** The department's professional preparation programs in speech-language pathology and in audiology are **nationally accredited by the Council on Academic Accreditation in Audiology and in Speech-Language Pathology.**

Oklahoma City offers diversity in culture, cuisine, attractions and all the amenities expected in a city of excellence. The University of Oklahoma Health Sciences Center campus is close to downtown and popular destinations such as the Bricktown Riverwalk and the Riversport OKC, where U.S. Olympic and Paralympic hopefuls train and compete.

The University of Oklahoma is an Equal Opportunity Institution. For more information go to www.ou.edu/eoo.
