Assistant Professor/ Associate Professor/ Professor

The Department of Medical Imaging and Radiation Sciences includes undergraduate and graduate programs focused on the art of medical imaging and radiation therapy. Our programs are programmatically accredited and recognized nationally through our outstanding faculty and educational curricula. We invite you to use the program links to investigate the professions.

This is an exciting time to work in these health-care professions! Within our professions, we work with the most advanced and sophisticated equipment, using critical judgment to produce diagnostic images and ensure safe and effective therapeutic interventions. Our department values its place within the University of Oklahoma Health Sciences Center, where our students and faculty participate in interprofessional activities in preparation for the current health care environment.

Oklahoma City offers diversity in culture, cuisine, attractions, and all the amenities expected in a city of excellence. The University of Oklahoma College of Allied Health campus is in close proximity to the Bricktown Riverwalk and the Riversport OKC, where U.S. Olympic and Paralympic hopefuls train and compete.

The University of Oklahoma Health Sciences Center does not discriminate against or permit discrimination by any member of its community against any individual based on the individual's race, color, religion, political beliefs, national origin, age (40 or older), sex (see: Sexual Misconduct, Discrimination policy) sexual orientation, genetic information, gender identity, gender expression, disability, or veteran status.
