

# WE'RE HIRING

## Required Qualifications:

- Physical therapist with an earned post-professional doctoral degree or who is currently enrolled and will complete a post-professional doctoral degree by Dec. 31, 2025; or an entry-level DPT with specialty certification.
- The candidate must be licensed in Oklahoma or meet all eligibility requirements for Oklahoma licensure.

## Preferred Qualifications:

- Educational, clinical, or research experience with orthopedic extremity or spine conditions.
- Experience with teaching entry-level professional students in an academic and/or clinical setting.
- Three years of clinical experience.
- Evidence of research/scholarly contributions to the physical therapy profession (i.e., presentations, publications, continuing education instruction).
- Willing to serve in a shared leadership role in clinical education.
- Effective communication and interpersonal skills.

## Responsibilities:

Supports the development of the Department of Rehabilitation Sciences through interprofessional teaching, research/scholarship, and service activities/mentoring.

## Assistant Professor, 12 months, consecutive-term appointment.

The Department of Rehabilitation Sciences at the OU Health Sciences Center (OUHSC) invites qualified applicants to apply for a 12-month-faculty appointment in our innovative and enriching Physical Therapy program at our Oklahoma City campus.

The PT program was founded in 1954. In 2000, our pioneering physical therapy and occupational therapy faculty launched an integrated, interprofessional curriculum. Our faculty enjoy the richness of interprofessional collaboration across three campuses: OUHSC (OKC), the OU Schusterman Center (Tulsa), and the University of Oklahoma (Norman).

OUHSC is home to seven health professional colleges offering a diverse community for students in the College of Allied Health, College of Dentistry, College of Medicine, College of Pharmacy, College of Nursing, College of Public Health, and the Graduate College. Research collaborations are available through OU Health, our National Cancer Institute-designated Stephenson Cancer Center, OU Health Harold Hamm Diabetes Center, Center for Geroscience and Healthy Brain Aging, and the Oklahoma Clinical and Translational Science Institute.

Oklahoma City offers diversity in culture, cuisine, attractions, and all the amenities expected in a city of excellence. The OUHSC OKC campus is in close proximity to the Bricktown Riverwalk, and the Riversport OKC where U.S. Olympic & Paralympic hopefuls train and compete.

*The University of Oklahoma Health Sciences Center does not discriminate against or permit discrimination by any member of its community against any individual based on the individual's race, color, religion, political beliefs, national origin, age (40 or older), sex (see: Sexual Misconduct, Discrimination policy) sexual orientation, genetic information, gender identity, gender expression, disability, or veteran status.*
