Support the Department of Rehabilitation Sciences through primary responsibilities in interprofessional teaching in the occupational therapy and physical therapy programs, and institutional community service activities as well as scholarship in areas of professional expertise, interprofessional education, and/or educational research.

Assistant/Associate Professor, Occupational Therapy Program

The University of Oklahoma College of Allied Health Department of Rehabilitation Sciences, at the Schusterman Campus in Tulsa, Oklahoma invites applications from occupational therapists with an earned post-professional doctorate to apply for a 12 month, full-time, consecutive-term, faculty appointment in our innovative, Occupational Therapy program.

The OU Occupational Therapy program has a 47-year history of attracting students from around the country through excellence in education and research. Our program at OU-Tulsa enjoys the richness of collaboration with multiple disciplines across two campuses, the OU Tulsa Schusterman Center and the OU Health Sciences Center in Oklahoma City. Specifically, the Tulsa campus has collaborative opportunities with Community Medicine, Social Work, and Education. Unique to occupational therapy education, the OU Occupational Therapy program shares an interprofessional curriculum with physical therapy, an innovation not duplicated in any other OT program in the United States. Tulsa is a beautiful, metropolitan city ranked as a Best Place to Live with world class parks, recreation, and the arts.
