

# INTERPROFESSIONAL GRADUATE CERTIFICATE IN APPLIED NUTRITION

## OVERVIEW

- **12 credit hour online program designed for healthcare professionals**
- **Provides evidence-based nutrition education for diverse health professionals**
- **Teaches practical and clinically applicable skills while maintaining scope of practice**

## CERTIFICATES OFFERED

- Applied Nutrition
- Applied Pediatric Nutrition
- Applied Sports Nutrition (begin Fall '25)

## BENEFITS OF THE PROGRAM

- Learn how to collaborate effectively with a Registered Dietitian Nutritionist (RDN) in the context of each profession's scope of practice
- Flexible course schedule
- Individualized course content
- Apply nutrition knowledge to improve individual practice and patient outcomes

## TESTIMONIALS FROM HEALTH PROFESSIONALS

"I think learning practical ways to incorporate nutrition findings into our assessments, effective ways to education on lifestyle behaviors in brief interactions, and opportunities for nutrition-related referrals and collaboration would benefit most of us"

*-Practicing Physical Therapist*

"It would also be helpful to explore my scope in the realm of nutrition as a pediatric feeding specialist (and cross-compared to a pediatrician), knowing that while I am not a dietitian, my role directly impacts and is impacted by nutrition"

*-Practicing Speech-Language Pathologist, specializing in Pediatric Feeding Difficulties*
